

## Essay Assignment #1

**For Friday, Oct. 12, please read the following.**

Write a 1-2 page essay (double spaced) that summarizes in your own words your best understanding (to date) of how the Greeks understood infinity. Base your writing on the readings, class discussions, discussions on Piazza, and your own reflective journal. Although this is not a research paper, if your essay contains quotes or ideas taken from others, you must cite your sources (even friends & classmates).

Your essay should be typed and formatted in Word. You should provide your name, the course number and name, the date, and the assignment title at the top of the first page. If your essay is more than one page, use footers to include page numbers and your name on each page.

Please use the guidelines found in *The Everyday Writer* that is referenced in the syllabus.
