Dear Students,

Thank you very much for your interest in CS585, Image and Video Computing. To help me get to know you better, please answer the following questions and bring your answers with you to the first day of class.

1 About You

1. What is your program (BS / MS / PhD) and year?

2. What is your undergraduate major?

3. What is your favorite area of Computer Science?

4. Do you have previous experience with Computer Vision, Image Processing, Machine Learning, Data Mining, Pattern Recognition, Artificial Intelligence or other related field? (Please describe briefly.)

5. Do you have previous experience with web development, image editing, graphic desgin, or general image manipulation? (Please describe briefly.)

6. Why did you choose to register for CS585?

7. What do you hope to learn about and what skills do you hope to acquire in CS585?

2 Programming

1. What are your preferred programming languages?

2. Do you have previous experience with C++?

   - What is your proficiency with C++?
   - Do you have experience with pointers? references?
   - Do you have experience with command line arguments?
   - Do you have experience with templates or the Standard Template Library?

3. What is your experience using a graphical IDE, such as Eclipse or Visual Studio?

3 Communication

1. Rate your comfort with formal written English.
   (1: not comfortable at all, 5: very comfortable)

2. Rate your comfort with giving presentations.
   (1: not comfortable at all, 5: very comfortable)
