

(Anonymous) CS585 Midterm class evaluation

Dear Students,

I am learning a lot by teaching this class, and I would like to ask your your feedback. If you could answer the following questions and return the questionnaires either by leaving them on the table at the end of class or by leaving them in my mailbox in the CS office, that would be really helpful for me to know how the class is going so I can make any adjustments.

Thanks,
Diane

1. I am interested in pursuing computer vision topics outside of class or after the class ends
