# Final Project

Your goal in the final project should be to evidence your understanding of the design process and your ability to translate it into action.

Deliverables:

1. A 1 minute video capturing the key problem your project addresses.  
Due Monday evening 3/13
2. An 8 minute presentation (live or video) in your Studio Wednesday 3/15
3. A paper describing your project due on or before Friday 3/17 midnight  
(wise to turn in early)
4. Fill out form describing the contributions of all team members (including yourself). Due Monday of exam week (3/20)

# Final Project Paper and Presentation

Although you will be able to provide more detail in your paper than your presentation, both should include:

**Introduction:** Motivate and describe the problem being addressed. (15%)

**Methods and Data:** Describe the process of observation and data collection: why you collected the data you did, how you went about collecting it, and what you found. (30%)

**Design:** Describe the design process and the design. (50%)

**Conclusions and Future Plans:** Summarize the project and briefly describe how to productively proceed. (5%)
