MySQL Workbench – Getting Started

The screenshot shows the MySQL Workbench application window. The title bar reads "MySQL Workbench". The menu bar includes "File", "Edit", "View", "Database", "Tools", "Scripting", and "Help". On the left sidebar, three icons are circled in red: a database icon labeled "SQL Development", a cube icon labeled "Data Modeling", and a wizard icon labeled "Migration Wizard". The main area displays a "Welcome to MySQL Workbench" message. Below the message are three links: "Browse Documentation >", "Read the Blog >", and "Discuss on the Forums >". At the bottom left, the "MySQL Connections" panel is visible, with a red oval around the "Local instance MySQL80" entry, which shows "root" as the user and "localhost:3306" as the connection details. A red text label "Connection to the local server" points to this entry.
